PROFESSIONAL SUMMARY

Software Developer with hands-on experience building and shipping full stack mobile and web applications in production. Currently building [VouchPay](#) at Ladder Inc, a live iOS and Android app funded by the NSW Government, with additional project experience across AI systems, RAG pipelines, and data engineering.

EXPERIENCE

Software Engineer

Ladder Inc.

Sydney, Australia

Jan 2026 – Present

- Built and shipped [VouchPay](#), a NSW Government-funded trust and reputation platform for Australian construction, live on the App Store and Google Play.
- Designed a vouch reputation system with ABR business verification and a role-based invoice approval workflow routing invoices through the correct approver chain.
- Built dashboards, calendar views, and invoice tracking across REST APIs and React Native; deployed to AWS EC2 with CI/CD via GitHub Actions and shipped to iOS and Android.

Freelance Web Developer

Self Employed

Sydney, Australia

Apr 2026 – Present

- Built a business website from scratch using WordPress and Elementor with Microsoft 365 email integration, Google Analytics, and security hardening.

PROJECTS

Customer-Safe Internal Knowledge RAG System [\[Project Link\]](#)

Jan 2026

Gemini API · ChromaDB · FastAPI

- RAG pipeline ingesting Slack data, classifying content using an LLM, and serving answers through a citation-gated REST API to keep sensitive information out of customer-facing responses.

Local AI Chatbot for Document Assistance [\[Project Link\]](#)

Dec 2025

LangChain · Ollama · ChromaDB

- Fully offline PDF chatbot powered by a local RAG pipeline with hybrid semantic and BM25 retrieval. No API keys, no cloud, no data leaving your machine.

Conflict-Free Field Service Scheduling System [\[Project Link\]](#)

May 2026

Next.js · TypeScript · Prisma · SQLite

- Full-stack scheduling app built with Next.js and Prisma, featuring transaction-based conflict prevention to eliminate double-booking race conditions and a real-time slot availability API.

SKILLS

Languages: Python, TypeScript, JavaScript, SQL, HTML, CSS

Frontend: React Native, React, Next.js, Tailwind CSS, Expo

Backend: Node.js, Express, FastAPI, Flask

AI and Data: Gemini API, Ollama, LangChain, ChromaDB, Pandas, Scikit-learn

Databases: MongoDB Atlas, SQLite

Cloud and DevOps: AWS EC2, GitHub Actions, Nginx, Expo EAS, CI/CD

Tools: Git, VSCode, Claude Code, Atlassian Forge SDK, Figma

EDUCATION

University of New South Wales (UNSW)

Master of Information Technology

Sydney, Australia

Sep 2023 – Sep 2025

Sri Sivasubramaniya Nadar (SSN) College of Engineering

Bachelor of Electrical and Electronics Engineering

Chennai, India

Aug 2019 – Jun 2023
